SUMMARY

Computer Engineering graduate and Product Designer specializing in UI/UX, with hands-on experience designing and building user-centered web and mobile apps. Skilled in Figma, user research, user flows, prototyping, and design systems, with a strong AI-assisted workflow for research, visual design, and motion design. Active LinkedIn creator sharing UX and tech-focused design content with 1M+ views, passionate about building intuitive experiences that solve real user problems.

PROJECTS

Case Study - United UPI

[CaseStudy Link](#)

- Conducted user research and competitor analysis to identify pain points in UPI transactions, split payments, and multi-app tracking workflows.
- Designed concept UI in Figma and NanoBanana with unified transaction tracking, cashback notifications, and motion-enhanced interactions.

My Things

[Behance Link](#)

- Designed a personal ownership management app that brings products, invoices, warranties, and service history scattered across emails and receipts into one place.
- Designed an AI-assisted invoice scanning flow that extracts product, price, seller, and purchase date, replacing long manual forms with a quick scan and review.
- Designed a status-first home dashboard, ownership timeline, contextual support, and ownership transfer flows, backed by a minimal blue design system.

My Portfolio

[Live Site](#)

- Designed an F1-themed portfolio that feels like a racing game or live stream, where visitors pick sections from an interactive track map.
- Created race-style experiences with start lights, checkpoint pins, and transitions, so viewers explore my work from a different perspective.
- Designed and Developed using Figma React, Vite, and Framer Motion, and deployed on Vercel.

SKILLS

Design & Product: Figma, Figma Motion, Framer, LottieFiles, User Research, User Flows, Prototyping, UI Design, Design Systems, Visual Design

AI & Productivity: Claude, Gemini, Google AI Studio, AI-assisted Design, Prompt Engineering, Windsurf AI, Antigravity AI

Development: React.js, JavaScript, HTML5, CSS3, Tailwind CSS

Tools & Platforms: Git, GitHub, Vite, NPM, Vercel

EDUCATION

2026 B.Tech in Computer Science Engineering, **VIIT Pune** — 8.26 CGPA

2022 HSC, **DS High School, Bhusawal** — 84.17%

2020 SSC, **St. Aloysius Convent High School, Bhusawal** — 86.80%

LEADERSHIP & ACTIVITIES

- **Vice President – I2IC-TPO Alumni & Outreach Council:** Led a 140+ member team managing alumni relations, hackathons, and digital & social media campaigns.
- **Finance & Sponsorship In-Charge – Gandharva:** Managed event budgets, sponsorships, and brand partnerships while coordinating with 20+ teams.

CERTIFICATIONS & LEARNING

- LottieFiles × Figma – Figma to Lottie Animation Course
- IBM – Introduction to Agile Development and Scrum
